

TONICA AL FIENO

Inspired by classic Indian tonic water, it is **characterized by flowery** and herbaceous notes given by the skillfully measured use **of spring hay** - the one that is cut first and is the most fragrant - **from the Alps around Cuneo**. The quinine bitterness pleasantly rounds off the balanced taste, which makes this tonic water perfect as a **refreshing and thirst-quenching drink**.

Pairings

Perfect for mixology, it brings out all the aromas of gin, although it was originally **developed for Beermouth & Tonic**, the first cocktail made with our Baladin beer vermouth.
